IMPORTANT SAFETY NOTICE

RINNAI GAS AIR WARMERS (556 Range only) -

RHFE-556FTRG

RHFE-556T

It has come to our attention that certain Rinnai Energysaver Model RHFE-556T and RHFE-556FTRG Gas Air Warmers (which use natural gas or LPG as fuel) contain gaskets which may fail under some operating conditions. There is a small risk that a gasket may lose its sealing characteristics and the by-products of combustion including carbon monoxide may leak into the premises where the Air Warmer is located.

As a precautionary measure and as a responsible supplier, we are undertaking a programme to replace the gaskets in all Rinnai Energysaver Model RHFE-556T and RHFE-556FTRG Gas Air Warmers sold by us from 2003 onwards, free of charge, using CORGI-registered engineers. Furthermore if you purchased a Rinnai Energysaver Model RHFE-556T or RHFE-556FTRG Gas Air Warmer from Drugasar Limited between 2000 and 2003 please contact us on **0800 0304 556**. **No other Rinnai Air Warmers or other products are affected.**
